> Kursbeschreibung The WBS Studienkolleg helps you to bridge the divide between your high school graduation with university entrance permit in your country and the admission to a German University. The certificate you receive when graduating from WBS Studienkolleg is tantamount to a German high-school diploma in your future field of study. Hence you can apply to any public university in all over Germany for studies in the field covered by the chosen course.

Benefit from small learning groups, highly skilled teachers, a wide variety of online learning content and customized supervision.

You can start your course on September 1st with the fall term respectively on March 1st with the spring term.

> Zielgruppe You want to study at a university or other institute or tertiary education in Germany? We will equip you with comprehensive knowledge to pass the German University Entrance Exam and all necessary means for applying to a German university successfully.

> Teilnahmevoraussetzung

- Valid university entrance permit in your country
- Relevant certificate for proficiency in German on level B1 (CEF) minimum, not older than 6 months
- or you passed the inhouse admission exam. (preliminary course for admission exam possible.)
- Student Visa
- Pre-enrollment at a university or other institute of tertiary education in Germany

> Inhalte The two-term preparatory course for university admission starts in September with the fall term and in March with the spring term. In about ten months, students at the WBS Studienkolleg will receive all necessary skills and abilities in language and science for passing the German University Entrance Exam and studying successfully at a German university. Alongside your scientific education we offer you thorough

counseling on all important issues surrounding your time at the Studienkolleg. We also offer an introduction to German culture and customs to facilitate a smooth start at your chosen university.

Services:

- Continuous thorough counselling in all aspects of study and student life in Germany
- Preparation for all studies in the fields of medical science, natural science and engineering, business and economics and social science
- Classes covering German, English, and scientific subjects in the chosen course
- In-person classes with experienced teachers, complemented by digital learning material
- Digital resources and software for learning at home.

Our **Student Welcome Program (SWP)** helps you applying for visa and resident permit, supports you in finding student housing close to our school, offers integrations in Germany Integration with information on all issues of student life in Germany.
